## Sales of Real Estate

Hon. W. T. Ziegler has recently made the following sales: Property of Max Davis on North Washington St. to John F. Walter for \$2225, a lot on East Middle Street extended to Wm. F. Mencher, the property of C. B. Tate on Carlisle St., known as McCann's Hall to John N. Weaver for \$10,000, and the Peters' farm on Carlisle road near Table Rock containing 126 acres to Oliver A. McCann for \$1500.

The Real Estate of the late P. G. Cassatt of Butler township, has been sold as follows: The farm in Straban township of 58 acres to J. W. Cassatt, for \$1600, the house and lot with three acres in Butler township, to Mrs. Eliza Warren, at \$560, and two acres of timberland in Menallen township at \$24 an acre.

The real estate of Wm. Yoost, late of Littlestown, has been sold by his administrators, Mrs. Annie C. Yoost and Chas. A. Yoost, as follows: House and lot on South Queen street, Littlestown, to Mrs. J. W. Wightman for \$975 and house and lot on East King street to Alma Smucker for \$780. The tract of land in Mountjoy township of 6 acres with house and barn, etc., to C. C. Collins for \$210, a wood lot of 5 acres and 151 perches in Mountjoy township to John A. Collins for \$180, a wood lot of 1 acre and 63 perches to Harry Snyder for \$69.50, a wood lot of 1 acre and 67 perches to J. A. Epley for \$81 and a wood lot of 1 acre and 59 perches to George Sourbeer for \$96.

The J. E. Moody property in Littlestown has been bought by Jos. Wolf of Mountjoy township for \$1,925.

John Stear has sold his property on East King street to Chas. Grau for \$1,600.

Noah Sell has sold his East Berlin property, on Main St. of that town, to Peter Harbold of same place for \$1700. Mr. Harbold has also bought the Dr. Kehm property on same street for \$1800.

W. G. Leas has sold one of his houses on Locust street, East Berlin, terms private.

## REAL ESTATE FOR SALE.

Many farms, both large and small, in different parts of the county. A number of them on very easy terms and at a low rate of interest. Quite a number of houses and lots in the Borough of Gettysburg. Those who contemplate buying are invited to call on or address the undersigned who will show the properties and make known terms. Just now I am much interested in selling an up-to-date dwelling house on Springs avenue. Also the house and lot on the corner of Baltimore and Breckenridge streets, known as the Pierce property. Also a farm of one hundred acres, with large up-to-date buildings, located one and one-half miles from Gettysburg. The land is in a high state of cultivation. The good will of the largest dairy route in Gettysburg, will go with it. Also a mill property not far from Harney, Md. I represent a number of good companies and can insure your buildings against loss by fire.

## TIME TO DO THE FALL BUYING

This store has not arrived to its present stage of usefulness by chance. There is no luck or speculation about this business; it is the result of downright, honest, hard work. Work where the interests of the consumers of this community have been carefully studied. Our business and store has gradually grown to its present proportions. We number our customers and business friends by the thousand. They know us and have confidence in our merchandise and prices. It has been our aim to Better our Best and we believe that our Fall offerings are better, more varied in most instances, than ever before.

THE FALL STOCK INVITES YOU and as there are strong advances in the wholesale market, many goods not contracted for, as we did—early—must be advanced to the consumer, so the earlier you fill your wants the less there will be to pay.

## Tailor Made Suits

A lady is never so well dressed on the street as when she wears a Tailor Made Suit—A Man's Verdict.

We are showing now over 75 styles and colors of Tailored Suits in such a variety of sizes that almost all forms can be fitted.

Ladies Suits as low as \$7.50 and \$8.00 in this season's styles, from that on up to \$10, \$12, \$15 up to \$35

## A Street Suit

for the College Girl and her High School Sister. We have made special preparation to fit out, in a refined and inconspicuous manner, the Miss whose skirts are not full length, and who requires a coat of different shape from that of her full grown sister. These suits are made in sizes 13, 15, 17 years, and are called "Junior Misses." A young girl in such a suit will look charming and youthful instead of a pocket edition of mother's styles. Prices

\$10.75, \$15 and \$18.50

## Coats for Babies and Tots

Such a variety that all comers can be fitted out according to your ideas of price you desire to pay.

## The Top Coat

The coat to wear over the suit for colder weather is here in all the glory of correct tailoring and variety of weight, quality and price, yet none that are not right for the price.

Novelty Styles as well as the plainer all the time style, are here. Coats for dressy occasions as well as those for regular hard wear. Coats for all sizes and ages.

LADIES' and MISSES' CARACUL and PLUSH COATS. Fashion will popularize these Coats this season. The buyer from the early stock will save money.

The COLLEGE GIRL'S COAT, as well as the SCHOOL GIRL'S COAT, of materials that will stand knocks, style and quality. No extra cost for the style—you pay only for quality here.

P. S. We have coats to fit the extra large lady—up to size 50.

Ladies' Half and Three-quarter Length JACKETS, sizes for irregular shapes as well as perfect forms—\$5, \$5.75, \$15.

## Silk and Net Waists

Newest Ideas. White Linen Tailored Waists from \$1.00 to \$3.50. Unless you like the pleasure of embroidering your own Waist—the price is much less than you can have it done for.

## The Separate Skirt

In the new plait styles—in all grades. Skirts for the Miss as well as the Grown Ups, at any price you choose to pay. A Tailored Skirt has the same style to fit as the Tailored Suit.

## Bed Furnishings.

Four months ago we placed our orders so as to be ready carefully, and as the market has gone on raw materials since, we have made big savings for you. We advise you to make an inspection of other stocks in this line so that you will appreciate QUALITY AND PRICE of our offering. Just a few here to show the savings on early purchases.

## STOMACH LIVER LUNGS

Each of the chief organs of the body is a link in the Chain of Life. A chain is no stronger than its weakest link, the body no stronger than its weakest organ. If there is weakness of stomach, liver or lungs, there is a weak link in the chain of life which may snap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of weakness or disease of the stomach and other organs of digestion and nutrition. Diseases and weaknesses of the stomach and its allied organs are cured by the use of Dr. Pierce's Golden Medical Discovery. When the weak or diseased stomach is cured, diseases of other organs which seem remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition, are cured also.

**The strong man has a strong stomach.**  
Take the above recommended "Discovery" and you may have a strong stomach and a strong body.

**GIVEN AWAY.**—Dr. Pierce's Common Sense Medical Adviser, new revised Edition, is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address: Dr. R. V. Pierce, Buffalo, N. Y.

## Governors of Pennsylvania

**JAMES POLLOCK—1855-1858.**

James Pollock was born in 1810 at Milton. He received a splendid education and after graduating at Princeton prepared himself for the practice of the law. He represented the Thirtieth district in congress from 1844 to 1850 and in 1850 was appointed president judge of the Eighth judicial district. He was elected governor of the commonwealth in 1854 and declined a nomination for a second term. It was during his administration that the panic of 1857 occurred. Governor Pollock called a special session of the legislature. Upon his recommendation laws were passed legalizing the suspension by the banks of specie payment. This relieved the situation, and a financial calamity was avoided. It was at his suggestion that the words "In God We Trust" were placed upon our currency. He was naval officer of Philadelphia from 1830 to 1834, after which he resumed the practice of law until his death, April 20, 1890.

## MONEY IN WEEDS.

Children Could Be Taught to Find and Market.

This country is actually importing for medicinal purposes plants that are growing wild all around us, but which no one seems to think it worth while to gather. This fact is pointed out by the Department of Agriculture in a bulletin called "Weeds Used as Medicine," which it would be worth while for the boy who reads this to write for if he wants to make a little money out of the vacant ground all around him. The bulletin will explain how to prepare the weeds for the market and will give some idea of the price that the industrious boy can expect to obtain for the weeds that are marketable.

Belgium and other European countries ship to this part of the world every year about 50,000 pounds of our dock root. The root sells for from three to eight cents a pound and the seeds for from five to ten cents. This will probably be news to most of those diligent workers who have been weeding out the burdock from thousands of farms and carefully consigning it to the flames, while the more thrifty Europeans have been selling it to us in consignments that come more than three thousands miles to a country that abounds in it.

Who has not wondered at the sight of Italians digging for dandelions. The country boy knows that dandelion greens are not bad for the table, but what few but the astute alien are wise to is that druggists derive part of their income from the sale of dandelion as a tonic and that from four to six cents a pound can be obtained from the root that flourishes everywhere ready for the picking.

Instead of gathering the dock root that goes to waste all around us the American nation pays for the importation of 125,000 pounds of this plant every year. The dried root sells at from two to eight cents a pound and is considered an excellent blood medicine. The waste lands are alive with it and any boy could make money by gathering and preparing it for the market.

A quarter of a million pounds of dog grass, a remedy for kidney troubles, comes to this country annually from abroad. Is it because we cannot grow dog grass in America? No, but because for some reason this unthrifty nation imports it instead of pulling it up and preparing it from the places where it grows all around us. It brings from three to seven cents a pound. Here's a chance for the boy who finds the long vacation begin to pall upon him to show he is as industrious as his competitor in the old world.

Then there is pokeweed, a skin and blood remedy, the dried roots of which sell for from two to five cents a pound; mullein, which is a nerve tonic and a cough medicine, and which sells for good prices, but is not thought to be salable by the boys of this country (German boys know better—they sell it for importation to America); lobelia seeds, which sell for fifteen cents a pound, and catnip, which can be exchanged for pocket money at the rate of from two to eight cents a pound.

These are only a few of the many weeds that are salable, but which we allow to go to waste in this country, while we buy the identical thing from abroad. It will open the eyes as well as line the pockets of our boys to get the bulletin referred to and make money out of that obvious job of weeding.

THE STANDARD OF THE WORLD

A Model Freight and Express Car.

A car which has recently been completed in the shops of the Hanover & McSherrytown Street Railway Co. for a freight and express service is a model of its class. The general construction of this car was patterned after those in use on the middle western traction lines, where the development of this business has reached the highest stage.

The car body is 30 feet long by 8 feet wide and 8 feet high. The underframing is solid steel, with only enough wood to nail the floor, making an exceptionally rigid and stiff car. There are 24-foot doors, one at each end on opposite sides, and two small windows on each side, protected inside by iron bars. The color of the body is the railway company's standard green with cream trimmings, making a very attractive car.

The car is mounted on Brill's latest single trucks, with long wheel bars for easy riding and is further braced on the ends. It is equipped with two West motors of 40 h. p. each, giving this car 80 h. p. ample for this severe service. This car was completely built in the shops of the railway company with the exception of the trucks and the motors. It was designed by Robert E. Manley, general manager of the company, and built under the direction of LeRoy Stokes, master mechanic. The car will be used between Hanover and McSherrytown, Littlestown and other points according to the demands of the road.

## The September Musician.

The Musician (Boston, Mass.) for September contains a number of strong features in view of the teaching season just commencing. The most important is a Symposium on "Success in Music Teaching," consisting of experiences from a number of successful teachers: an analysis of Mendelssohn's Rondo Capriccioso in E Minor, Opus 14, by Wm. H. Sherwood, the distinguished American pianist; "Why Musical Theory Should not be Neglected" by Jaroslav de Zielinski; an account of the Gamut Club of Los Angeles, a flourishing organization of musicians. A number of short articles on practical topics suitable to the beginning of the teaching season supplement the more important articles. Added to this are the usual special departments for Singers, Violinists, Organists, Teachers and Children. The music section contains seven pieces for the piano, and two songs by American and European composers. The compositions are all of attractive quality and medium difficulty.

## DEMOCRATIC DECLARATION

FORMULATED BY BIG BODY OF  
NEW YORK DEMOCRATS.Principles of Party Put in Brief  
Form Will be Heartily  
Supported.

A number of the most prominent Democrats of New York State met at Saratoga, the first week in September, to formulate a declaration of principles, upon which all Democrats could unite and bring about a better state of affairs in the Democratic party of New York State. Over five-hundred of the best men of the party in that state, voluntarily attended at their own expense, and almost a week was consumed in forming the declaration of principles. When the work was finished, it was said that a more unselfish and more patriotic body of Democrats had not assembled since the early Ethen days, and the declaration unanimously adopted is one to which every citizen interested in the establishment of Democratic principles can give hearty support.

The Democrats assembled in conference at Saratoga, September 9 and 10, 1909, announce the following as their understanding of certain essential Democratic principles and policies.

A strict construction of constitution, both State and Federal, that the rights of the States and the people respectively may be preserved.

Loyal support of the Federal Government in the exercise of all its constitutional powers, eternal vigilance in watching and detecting and vigorous and persistent opposition to any and all extensions of Federal power that trench upon those reserved to the States or to the people.

Enforcement of the laws by State and Federal authorities against criminal combinations and trusts in restraint of trade.

A tariff for revenue only; no Government subsidy and no special interests, either directly or through protective tariff.

Equal and uniform taxation; taking no more money from the people than the just needs of government economically administered requires.

The abandonment at the earliest moment practicable of our imperialistic venture in the Philippine islands, first safeguarding their independence by sufficient guarantees.

Steady adherence to the principle of home rule and local self-government by the State and each of its political subdivisions.

Rigid economy in Government expenditures.

Election of United States Senators by the direct vote of the people.

Reform in our registration and in enrollment laws, so that personal registration and enrollment shall be required in every political subdivision of the State. Reform in our methods of election so that each elective officer shall be the separate, deliberate and intelligent selection of the voters of the State.

Reform in our methods of nominating candidates for public office so that nominating conventions shall be composed of representatives directly chosen by the members of the party.

Reform in our primary laws so as to give to every citizen greater direct influence in naming candidates for office and surrounding the primaries with such safeguards as will insure their honesty and providing the necessary time and legal machinery to insure the choice of a majority of the voters being respected and enforced in convention and committee.

No interference with the personal liberty of any citizen except such as is essential to secure the equal rights of all citizens.

Taxation of corporations by the States alone.

A constitutional amendment authorizing the levy of a Federal income tax.

## Aerial Navigation.

"More progress has been made on aeroplanes during the last year in France and America than was made upon automobiles during five years succeeding their introduction," was the fifth of a remarkable statement by a Philadelphia upon his return home after reviewing the Rheims display of flying machines, where he was one of the judges.

He said that he considered that the French are now leading the world in the science of aviation, and he expects to see that nation make the most rapid development in the future toward the perfection of the aeroplane. He gave as his reason for this belief the fact that in France there is such a large number of wealthy sportsmen, who are still active in the development of any agency that makes for sport. When, then, we reach aerial navigation as the ideal pastime of sportsmen.

"I fully believe," he continued, "that within the next decade the aeroplane will be perfected to the point where it will be practical and economical."

## Scrofula

Few are entirely free from it. It may develop so slowly as to escape notice if any disturbance during the whole period of childhood.

It may then produce dyspepsia, catarrh, and marked tendency to consumption, before causing eruptions, sores or swellings.

To get entirely rid of it take the great blood-purifier,

mon use. In the aeroplane as it is now built there are, so far as I can see, only two serious hindrances, which I expect to see overcome in a short time. These hindrances pertain to the rising and alighting of the machines, and to the uncertainty of the equilibrium during their flight.

"The reason for the aeroplanes of today not being able to start against a strong wind is that they can not rise with certainty. They have difficulty in getting clear of the ground if the wind exceeds one-quarter of the maximum velocity of the machine, because it is rising against a strong breeze there is danger of the machine being upset by a puff before it gathers headway. But once clear of the ground they can easily negotiate a wind that is equal to half their speed.

"So the chief weakness of the aeroplane today, as I see it, is its lack of power to control its equilibrium. If this weakness is overcome, not only can the machines clear the ground with certainty in a strong wind, but there will be no danger of capsizing while in flight.

"At the present time the equilibrium is maintained in the air by the efforts of the pilot operating a series of levers, and the correct manipulation of these levers, depend absolutely upon the presence of mind of aviator, so that, when the pilot loses his head, as was the case recently in a trial flight in Europe, the result is fatal.

"To overcome this weakness some method will be adopted whereby the equilibrium of the aeroplane will be maintained by an automatic control, leaving the pilot free to guide the machine, and this will relieve the mind of the terrific mental strain to which he is now subjected to keep his machine on a level keel.

"This automatic control of the equilibrium will make it easy, too, for the machine to be brought safely to the ground. There is considerable danger now in alighting in a strong wind, because the only effective way to come to the earth is for the machine to be brought head to the wind, but to do this there is hazard of its upsetting in the maneuver.

"The principal aviators of the world are now directing their experiments toward correcting these weaknesses, and I think the next year will see vast strides made in this direction, and when some plan is perfected, whereby the aeroplane will maintain its equilibrium automatically, and alight with safety, the machine will be a practical working force in our life. In a few years I look to see them as common as automobiles are at the present time."

## Care Needed in Sending Samples.

Specimens of insects, and of plants attacked by pests and fungus diseases, that are sent to State Zoologist Surface, Harrisburg, for examination and report, should be packed with care, so that the same will arrive in good condition.

Recently some clover leaves infested with plant lice reached the Professor in bad shape, and the instructions that he gave to the person who sent them will be useful for others to observe who contemplate sending specimens for the obtaining of information. The letter follows:

"I have received the leaves of young clover and the plant lice which you send to us with the interesting statement that the bees are at present gathering honey dew from these. Unfortunately the material was too much dried and broken when it arrived to enable us to determine anything concerning the species of the Aphids, and I should like very much to receive some in better condition. I, therefore, enclose three two-cent stamps and ask if you will kindly mail me some more of the clover containing the plant lice; and, especially, if you can find any with wings, these should be enclosed. Please put them in something like a tin baking powder can with a tightly-fitting lid. The specimens will then keep fresh without letting them be crushed, and when they reach us we can make a proper study of them."

## ALL OUT OF SORTS

Has Any Gettysburg Person Never  
Felt That Way?

Peel all out of sorts?  
Tired, Blue, Irritable, Nervous?  
Back feel lame and achy?  
That's the story of sick kidneys—  
Bad blood circulating about  
Uric acid poisoning the body.  
Just one way to feel right again.  
Care the sluggish kidneys—  
Don't let them kidnap you.  
Don't have your money Gettysburg people.

Here's one way.  
Mrs. Anna Matthews, of Steelwehr Ave., Gettysburg, Pa., says: "I would be hard to describe the misery I endured from kidney disease. In fact it really seemed as if I had all the symptoms of this malady. My back ached severely and the pains were so intense at times as to make me feel miserable. The kidney secretions were also irregular in passage and gave me much annoyance. I finally procured a box of Doan's Kidney Pills at The People's Drug Store and used them according to directions. My back grew stronger in a short time, the kidney secretions were regulated and I felt better in every way."

## Buttonwood Horse Wins.

Bertha Julius, the chestnut mare of the Buttonwood Stock farm, won two races at the Hanover Fair. It took six heats to decide the 250 pace country race on Tuesday for a purse of \$200, and Bertha Julius took the 1st, 5th and 6th heats, time of the same being 2:21 3/4, 2:22 and 2:23. On Friday the same horse in three straight heats won the 2:25 class pace for a purse of \$300, the time being 2:22 1-2, 2:22 1-2 and 2:22 1-4.

## Voluntary Bankrupts

C. H. Emmert and W. H. Emmert of New Oxford, and George W. Emmert of York Springs, brothers, sons of the late W. H. Emmert, of New Oxford, have been adjudged voluntary bankrupts. C. H. Emmert conducts a dry goods store in New Oxford, and W. H. Emmert is the New Oxford postmaster, while George W. Emmert is a York Springs merchant. W. H. and George W. Emmert are also proprietors of the Emmert shoe factory in New Oxford.

## Next Driving Matinee.

The Gettysburg Driving Club at a recent meeting decided that the next matinee and the last one of the season would be held on Saturday, October 9th. It was also decided that only local and Adams county horses can be entered in the races. It is expected that this decision will result in more horses being entered in the races than in any previous matinee. Every effort will be resorted to make this the best event of the year. All entries of horses should be sent as early as possible to B. F. Kindig.

## New State Roads.

W. B. Johnson of Spring Forge, has the contract for the building of the new State road in Conowago and Union townships. He was the lowest bidder for both roads. While separate bids were asked for the roads in the two townships, yet the roads will form one continuous road on the most direct route between McSherrytown and Gettysburg. The route in Conowago township is from the Littlestown pike near McSherrytown through Brushstown to the township line at the bridge over Conowago Creek.

The Union township line is from the same bridge to the Mount Pleasant township line. The bids of W. B. Johnson are the lowest bids so far made for the building of State roads in this county and approximate about \$11,000 a mile. The bid for the Conowago township end of the road of 7825 feet, about 1 1/2 miles, was \$17,384.00 and for the Union township end of 6025 feet, about 1 1/5 mile, was \$13,833.08. Of the amount required for building of the road one-eighth will fall on the county and one-eighth on the township.

It is said the Government has under contemplation a road in Mt. Pleasant township to the Cavalry field and when built there would be but several miles between the Government road and the new State roads to be built, and it will make the best route between Gettysburg and Hanover.

The love feast at Pfoutz's Church at Marsh Creek was largely attended on Saturday and Sunday. The following ministers from a distance participated in the services: Rev. Thomas Eckert, Taneytown, Md.; Rev. C. L. Miller, Martinsburg, Va.; Rev. H. M. Stover, Waynesboro; Rev. David W. Allison and Rev. C. F. Hasfield, both of Shippenburg; Rev. Geo. Resser, East Berlin; Rev. John Flohr, Fountaindale; Rev. John Utz, Beaver Creek, Md.; Rev. Wm. H. Murphy, Carlisle; also the following home ministers: Rev. Albert Hollinger, Rev. C. L. Pfoutz, Rev. B. F. Lightner, Rev. D. B. Wineman and Rev. E. K. Letherman.

Uncle Sam will hold an examination for Postal Clerks and Letter Carriers in Pennsylvania, in November, for other positions on different dates. It is estimated that 50,000 appointments will be made this year. The government wants people over 18 years to take the examination: will pay them well, and give them an annual vacation with full pay. The Bureau of Information, of Rochester, New York, with its thorough knowledge of all the requirements, can fit anyone in a few weeks to pass. A Government Position means employment for life. Prepare now for the examination. Any reader of the Compiler can get full information by writing the Bureau of Information, 249 Hamilton Building, Rochester, N. Y.

The first Educational Rally of the teachers of Cumberland township, will be held Friday evening, September 24th, at Fairplay school. Howard Bream, teacher, with the following topics for discussion:

Creek. The Union township line is from the same bridge to the Mount Pleasant township line. The bids of W. B. Johnson are the lowest bids so far made for the building of State roads in this county and approximate about \$11,000 a mile. The bid for the Conowago township end of the road of 7825 feet, about 1 1/2 miles, was \$17,384.00 and for the Union township end of 6025 feet, about 1 1/5 mile, was \$13,833.08. Of the amount required for building of the road one-eighth will fall on the county and one-eighth on the township.

It is said the Government has under contemplation a road in Mt. Pleasant township to the Cavalry field and when built there would be but several miles between the Government road and the new State roads to be built, and it will make the best route between Gettysburg and Hanover.

The love feast at Pfoutz's Church at Marsh Creek was largely attended on Saturday and Sunday. The following ministers from a distance participated in the services: Rev. Thomas Eckert, Taneytown, Md.; Rev. C. L. Miller, Martinsburg, Va.; Rev. H. M. Stover, Waynesboro; Rev. David W. Allison and Rev. C. F. Hasfield, both of Shippenburg; Rev. Geo. Resser, East Berlin; Rev. John Flohr, Fountaindale; Rev. John Utz, Beaver Creek, Md.; Rev. Wm. H. Murphy, Carlisle; also the following home ministers: Rev. Albert Hollinger, Rev. C. L. Pfoutz, Rev. B. F. Lightner, Rev. D. B. Wineman and Rev. E. K. Letherman.

Uncle Sam will hold an examination for Postal Clerks and Letter Carriers in Pennsylvania, in November, for other positions on different dates. It is estimated that 50,000 appointments will be made this year. The government wants people over 18 years to take the examination: will pay them well, and give them an annual vacation with full pay. The Bureau of Information, of Rochester, New York, with its thorough knowledge of all the requirements, can fit anyone in a few weeks to pass. A Government Position means employment for life. Prepare now for the examination. Any reader of the Compiler can get full information by writing the Bureau of Information, 249 Hamilton Building, Rochester, N. Y.

## By Rex Beach

DASHING with breathless interest to an unexpected and triumphant climax, this new Rex Beach novel—from the first page to the last—has all the sheer power of *The Spoilers* and all the quick humor and human sympathy of *The Barrier*. The background, superb in its robust romance, is Alaska, not the Alaska of the mines, but another phase altogether—the Alaska where red blood runs in the veins of men—yes, and of women. The

## The Silver Horde

hero is a young civil-engineer, in love with the daughter of a financier. In search of a fortune, he has faced all forms of hardship in Alaska. When he has almost given up hope, he meets Cherry Maiotte—the Cherry of *The Spoilers*—all fire and grit and tenderness, and the two join forces. Their battle with fate is a page from life itself—intense, powerful, passionately true.

## Tonic or Stimulant?

There is an immense difference between a tonic and a stimulant. Up one day, way back the next; that's a stimulant. Steady progress day by day toward perfect health; that's a tonic. Ayer's Sarsaparilla is a tonic, a strong tonic. The only Sarsaparilla entirely free from alcohol. Do not stimulate unless your doctor says so. He knows. Ask him. Do as he says. *J. C. Ayer Co., Lowell, Mass.*

Indigestion is the one great cause of sickness, biliousness, indigestion, bad breath, dizziness, nervousness. This your doctor ever recommended Ayer's Pills to you?

#### Question of Pavements

The borough authorities have served notice on a large number of our citizens, to repair and make new pavements. Attention has been called in the Compiler, to a number of pavements in a deplorable condition, and there is no question that a number of new pavements should be made.

In a recent walk in the heart of the town, only two pavements in a distance of almost two squares, could be found that did not need a remaking. The dry season has prevented the evidence of a scene of puddles, which many pavements will present as soon as the rains come.

There is a question whether the Town Council has taken the best methods to secure and encourage the building of new pavements. It has been our opinion that our people are entitled to more consideration than the ordinances permit, namely that a councilman can look at a pavement, and then report the same, and escape all unpleasantness by having the Secretary serve a formal legal notice, which puts the citizens on record as one who is not maintaining good pavements. Why can't councilmen adopt a better method when bad pavements are located? Why could not members of the council visit the citizens on the quiet, and suggest new pavements, and make it plain that the suggestion is made to avoid a record, and a formal notice. The assertion is ventured that many citizens would make promises which would be kept, which would give more new pavements than any strictly legal method will bring.

Another way for our town authorities to encourage the building of new pavements, would be to make an example. As long as the town maintains four of the worst pavements in the town, in the four corners of the square, it comes with poor grace to tell others to quit maintaining what the town is maintaining upon the most public thoroughfare. Let the town begin on its own pavements. Let them lead the way for cement pavements in the square. Let them go to the property owners in the square, and agree that the borough will put down cement pavements in the first two corners, where the property owners agree to put down similar pavements upon such portions as fall upon them to make. The remaining two corners could wait until next year. Two corners could be built for a total of about \$600. Why not build them?

The County Commissioners have made a contract with Charles E. Lacy for a cement pavement at the Court House on Baltimore and Middle Streets. Work will probably start this week and when completed it will be one of the best of public improvements and one that is greatly needed.

#### L. M. Buehler Successful.

After a great deal of effort and correspondence L. M. Buehler the popular druggist has succeeded in getting the Dr. Howard Co. in making special half-price introductory offer on the regular fifty cent size of their celebrated specific for the cure of constipation and dyspepsia.

This medicine is a recent discovery for the cure of all diseases of the stomach and bowels. It not only gives quick relief, but makes permanent cures.

Dr. Howard's specific has been so remarkably successful in curing constipation, dyspepsia and all liver troubles, that L. M. Buehler is willing to return the price paid in every case where it does not give relief.

No great is the demand for this specific that L. M. Buehler has been able to secure only a limited supply, and every one who is troubled with dyspepsia, constipation or liver trouble should call upon him at once or send 25 cents, and get sixty doses of the best medicine ever made, on this special half-price offer with his personal guarantee to refund the money if it does not cure.

## DEATH LIST OF A WEEK

**FORMER RESIDENT PASSES AWAY IN 90TH YEAR.**

**Remains Brought to Gettysburg and Interred in Evergreen Cemetery.**

Mrs. Lucy Bowen, widow of George W. Bowen, died on Tuesday evening of last week at her home in Baltimore, having reached the great age of 90 years. She was the daughter of Ezekiel Van Orsdal, a former resident of this place and married Geo. W. Bowen, who was a printer and at one time was connected with the Star and Sentinel. Later he obtained a position in the Government Printing Office at Washington, which he held until his death. The body of Mrs. Bowen was brought to Gettysburg on last Thursday morning, the funeral services were conducted by Rev. L. Dow Ott and interment in the Evergreen Cemetery. She leaves two sons and four daughters. She was a sister of the late Mrs. David Kendlehart and is survived by two nieces and two nephews of this place, Misses Mary and Sarah Kendlehart, J. L. Kendlehart, Esq., and J. W. Kendlehart.

MISS MARY CATHARINE McSHERRY, died at her home in Littlestown on last Wednesday afternoon, aged 49 years, 9 months and 12 days. Death was due to an inflammation of the heart after an illness of but one week. She was a daughter of the late Hon. Wm. McSherry, was born at the family homestead at Littlestown and was a graduate of St. Joseph's college, Emmitsburg, and was a devout member of St. Aloysius church of Littlestown. The funeral was held on last Friday with mass of requiem in her church by Rev. Father Kohl and interment in the Catholic cemetery of Littlestown. She is survived by four sisters and two brothers, Misses Annie, Cecelia, Virginia, Margaret McSherry and Dr. Richard McSherry, all living at home in Littlestown, and William McSherry, Esq., of Gettysburg. Three step-sisters and four step brothers also survive.

MRS. BATILDA HOUCK died at her home in Littlestown on last Wednesday morning from Bright's disease and pleura pneumonia after a week's illness, aged about 82 years. She was a faithful member of St. Paul's Lutheran church and active in church work. She lived alone. The funeral was held on Friday morning, Rev. J. J. Hill conducting services and interment in Mt. Carmel cemetery. She is survived by two sisters, Mrs. Angeline Lampert of near Hampstead and Miss Amanda Wolf, of Taneytown.

JOHN GEIMAN, aged 14 years, son of Mr. and Mrs. Samuel Geiman, of Midway, Conowingo township, died at the York hospital Friday, following an operation for appendicitis performed Tuesday evening, Sept. 14th. The

young man was taken to the York hospital on Tuesday evening by Dr. M. M. Flegal, of Hanover, where an operation was performed immediately after his arrival. The remains were removed to the home of his parents the same afternoon.

MRS. JACOB SIPE died at her home in Franklin township, York county, on Friday, Sept. 10th, aged about 62 years. Deceased was a resident of Latimore and Huntington townships for many years. Last spring she and her husband moved from the former township to York county. The funeral services occurred on Sunday, September 12th, with interment in the cemetery at Dillsburg.

REV. DR. JAMES S. MILLS, the well known bishop of the United Brethren Church, died at his home at Annyville, Lebanon County, last Thursday, Sept. 16, in his 62d year. He was born in Ohio and entered upon church work at an early age. He served congregations in several States as pastor before his election as bishop. He was known throughout his church as one of its most aggressive men.

#### Resolutions.

At a regular meeting of Washington Camp No. 414, Patriotic Order Sons of America, held Thursday evening, Sept. 16th, 1909, the following resolutions were passed on the death of Norman Bumbaugh:

Whereas an allwise Providence has permitted the hand of death to remove from our Camp our beloved brother, Norman Bumbaugh, and

Whereas, Camp No. 414 P. O. S. of A. in this little tribute of loving remembrance desire to express appropriate regard and esteem for him as one of our number, and the loss we deplore in his death, be it therefore

Resolved, that in his death, our Camp has lost a member who was always interested in the success of the Camp.

Resolved, that in Brother Bumbaugh's death our sincere sympathies, although inadequate and ineffective to assuage the sorrow and grief, go out to the bereaved family and devoted friends in this saddest of all dispensations.

Resolved, that a copy of these testimonials of love be sent to the family of our deceased brother, and that the same be published and placed upon the minutes of the Camp.

#### Stave Plant to be Built.

Senator William A. Martin while in Franklin County last week purchased a stave mill from John Leuher which he will add to his saw mill equipment in this county. It is Senator Martin's purpose to begin the erection at once of a building near his saw mill and equip it with the latest machinery for the making of staves for kegs. The second growth chestnut is the best kind of wood for the purpose and Senator Martin has over one thousand acres of second growth chestnut which is in the best of condition for his purposes and which will furnish all the timber needed for the stave mill for many years to come.

## Simple Cure For Pimples

There is only one way to obtain a clear transparent and flawless complexion: massage treatment makes the flesh flabby, the so-called beauty creams containing oily or other greasy substances, fill up the pores of the skin preventing them from doing their work properly, and also induce the growth of a fine fuzzy hair on the face. If you would have a face entirely free from Pimples, Blotches, Eczema, Black heads and kindred diseases of the skin get the following prescription put up at any reliable Drug Store and your troubles will soon be over. Clearola, one-half ounce. Ether one ounce. Al-skin, one-half ounce. Mix, shake well

and apply to the face night and morning, allowing it to remain at least ten minutes, the longer the quicker results you will have. In extreme cases apply four or five times daily.

The filmy powder deposits on the face may be wiped off after a reasonable time. Do not use soap. Instead wash the face with oat meal and a little powdered orris root tied up in a cheese cloth bag, and no matter how bad your face is, or what the cause may have been, this will surely cure it. This prescription is perfectly harmless and can be used on the most delicate skin.

# Has Some Friend Told You of Foods Shot from Guns?

Folks who eat Puffed Wheat and Puffed Rice are sorry for those who don't.

So they tell of these foods to others, and the others tell others. That's how the use is spread.

Please ask some housewife to tell you how her folks enjoy these foods.

Or try them yourself. One package of Puffed Wheat, at a cost of ten cents, will reveal a new delight.

## Puffed Wheat—10c Puffed Rice—15c

These are the foods invented by Prof. Anderson, and this is his curious process:

The whole wheat or rice kernels are put into sealed guns. Then the guns are revolved for sixty minutes in a heat of 550 degrees.

That fierce heat turns the moisture in the grain to steam, and the pressure becomes tremendous.

## FIGHT AGAINST INSECT PEST

INCREASED BY INDIFFERENCE  
OF TOWN PEOPLE TO PESTS.Infesting Their Yards, Bushes,  
Trees, Etc.—Vast Majority Do  
Not Have a Care.

A prominent citizen of an interior city of Pennsylvania wrote to Prof. H. A. Surface, State Zoologist, Harrisburg, in reference to the neglected condition of trees, shrubbery and plants in town yards and lots, and the case which he cites in his letter is similar to thousands of others. His letter is, in part, as follows:—

"I have become considerably disturbed in regard to the woeful lack of knowledge and attention shown by the people of our city with special reference to the San Jose Scale and kindred pests. Within ten days I have examined trees, rose and vines in my immediate neighborhood, at the request of the owners, and found the most virulent cases of infestation imaginable; trees half dead, rose bushes exhausted, currant bushes being torn out, and shrubbery in the last stages of existence, without any effort whatever being made to save them, or remove the cause, principally through total ignorance as to the identity of the cause, or lack of knowledge as to what remedy to apply.

"I think you will agree with me when I venture the opinion that the San Jose Scale is a great deal more prevalent in cities and towns than in the outlying localities, due possibly to the close proximity of the plantings, diversity of plants, and the ever present agency for its spread, the English sparrow, and it is sure to get to country orchards through the different methods of transportation by which it is usually carried.

"It appears to me to be highly important that something be done and some method adopted to exterminate it at the chief seat of its existence, and I need not enter into any extended presentation of facts as to why, as you with your most excellent knowledge of the subject, and extended experience, will readily see how low-growing shrubbery, such as is characteristic of city property, may be more thoroughly handled with remedies than others, while at the same time it removes the chief seat from which to carry the pest throughout the country.

"In spite of the wide dissemination of information and public discussion on the subject of the various scale insects and their destruction, I am very much surprised, and more or less indignant, at the neglect and inexcusable indifference manifested by at least 99 out of every 100 people, who should have a care, and a deep feeling of interest, in these matters, but who, it seems, never think to investigate and inquire until they see the dead branches or limbs staring them in the face, or lack of vigor arouses their suspicions; in fact, I have not discovered one person in a hundred who can distinguish San Jose Scale from a bed bug, so far as giving it the right identification is concerned."

Prof. Surface, in reply, confirmed these statements, saying they apply fully to almost every city and borough in eastern and southern Pennsylvania, and this is just why he is sending competent inspectors to find the scale pest, in order that he can notify owners when it is present and what to do for it.

Don't use harsh physics. The reaction weakens the bowels, leads to chronic constipation. Get Doan's Regulents. They operate easily, tone the stomach, cure constipation.

## One Was Enough.

The British academy once had printed a few copies of an important work for presentation to some foreigners who, from their prominence in the scientific world, were best entitled to be honored with the gift. Professor Airy, the astronomer royal, was requested to make a selection of the names. A few days after he had sent in his list he was informed by the secretary of the academy that "my lords" were struck by the number of unknown names included and that they wished to make an inquiry on the subject. Airy asked the secretary for some specifications as to the names referred to.

"Well, as an example," said the secretary, "here is the name of Professor C. F. Gauss of Göttingen. Who is he?"

"Gauss is one of the greatest mathematicians of the age and stands among the two or three most eminent masters in physical astronomy now living. Who else do you wish to know about?"

"No one else. That will do," replied the secretary.

## What Man Owes to Birds.

"It should be realized," said a naturalist, "that without birds to hold in check the insects vegetable life soon would cease and life for man would become impossible upon the earth. Birds are nature's check to the amazing power of insects to increase. If insect life were allowed free course it would soon overpower plant life, and therefore animal life, including that of man, would be impossible. This is an astounding conclusion, but it is the conclusion of science. If the birds were gone very soon the leaves would disappear from the trees, and the limbs would be festooned with the webs of caterpillars or with masses of their nests. These would move from tree to tree, increasing by the million as they advanced. In the course of a few seasons they would be no trees. In the fields and meadows of insects would destroy the grass and the grain and all vegetable life, and the ground would be as if a sea of devouring months had passed over it."

## A Narrow Escape

Edgar N. Baylis, a merchant of Rutinsville, Del., wrote: "About two years ago I was thin, and sick, and coughed all the time and I did not have consumption, it was near to it. I commenced using Foley's Honey and Tar, and it stopped my cough, and I am now entirely well, and have gained twenty-eight pounds. All due to the good results from taking Foley's Honey and Tar. ## Best Treatment for a Burn.

"If for no other reason, Chamberlain's Salve should be kept in every household on account of its great value in the treatment of burns. It allays the pain almost instantly, and unless the injury is a severe one, heals the parts without leaving a scar. This salve is also unexcelled for chapped hands, sore nipples and diseases of the skin. Price, 25 cents. For sale by The Peoples Drug Store."

CHAS. STARK, former resident of Littlestown has bought confectionary store of Elmer Basehoar in that place.

REUBEN ROTH had a number of chickens poisoned by Paris green mixed with feed stuff, and eleven of the flock died.

ELY'S CREAM BALM has been tried and not found wanting in thousands of homes all over the country. It has won a place in the family medicine closet among the reliable household remedies, where it is kept at hand for use in treating cold in the head just as soon as some member of the household begins the preliminary sneezing or snuffling. It gives immediate relief and a day or two's treatment will put a stop to a cold which might, if not checked, become chronic and run into a bad case of catarrh.

J. F. PETERS, of Cedar Brook Farm, Tyrone township, has a record breaking brood sow, being three years and two months old and has had 61 pigs.
